

# “There is always a solution”

## About Us

Andrew Neal is highly skilled hands on Sales/Commercial professional whose progressive career has been based upon a platform of training and experience within one of the World's leading manufacturers of electrical hardware.

A Senior B2B Specialist with extensive knowledge in providing market leading product & service solutions for both the public and private sectors. Proven ability to plan & deliver innovative marketing & operational plans, to optimise sales and improve business efficiency.

The ability to communicate at all levels Andrew has been pivotal in forming successful training programmes aimed at improvement, as well as an effective hands on team leader with the essential motivational skills required to manage managers and deliver excellence within a culture of continuous improvement.

ISO 9001, 14001 & 18001 Implementation can quickly change your business model, which allows you to plan and more importantly prepare your business for both growth and as always, inevitable change. Andrew's knowledge of all the systems associated with Quality, Environmental & Health & Safety will take the stress out of implementation and with 100% first time guaranteed Audit success rate, will even save you money.

If you want to know more, feel free to contact Andrew to discuss your business in complete confidence and with no obligation, please call Andrew on 07795 344957, or email [andy@anconsultancy.com](mailto:andy@anconsultancy.com).
