Need help understanding the new 2015 code? then look no further, already 100% implementation record for the new code. Whether you are just looking for someone to train your staff on the principals of 9001 (Quality), 14001 (Environmental) & 18001 (Health & Safety), or for help with full Implementation, We have the experience and a proven track record of 100% Audit Pass first time every time, we also offer a guarantee, therefore no hidden or surprise costs.

As an External Auditor, we understand the codes inside out, and know exactly what your Auditors are looking for, so if you follow our rules and guidance, you will pass every audit that follows, every year, even on your own. However, a number of businesses just don't have the dedicated resources to constantly manage the process, so AN Consultancy also offer a Consultancy Service that allows you the freedom, but still have all the skills and expertise at hand to manage it for you.

ISO 9001, 14001 & 18001 Implementation can quickly change your business model, which allows you to plan and more importantly prepare your business for both growth and as always inevitable change. Andrew's knowledge of all the systems associated with Quality, Environmental & Health & Safety will take the stress out of implementation and with 100% first time guaranteed Audit success rate, will even save you money.

All of the above is fully ACCREDITED under either "UKAS or ASCB(E)", one of Europe's largest Accreditation bodies.
